Dear Rus

Journal of May 2
from letter came on Monday -
Glad to have them. April 20 never
turned up Have written to Bastian
Hope he will come but he wrote
one saying that he could not
Shall be most happy to play duets with you
Strange at 49 Lincoln ave, (Rose Academy in Montreal) came
here last week - very glad. wish
I had done so at first as everything
is most angenehm in Cohnheims
Laboratory. Weigert is in charge C
being ill with gouty nephritis.
I go there at 8 am work until 10.30 at
Bacteria, then go to Leuckart Laboratory

association is there. I shall try to bring out some cultures which will do for stock – The only trouble is that the heat may destroy them. I do hope that the family will be able to arrange for Mills & myself to live at the college. How I long for a glimpse now! Lockart has about $4000 a year, & the splendid set of apartments in the 3rd floor of the Institute. It seems criminal at first to see the upper flat devoted to the families of the professors & assistants – but it saves time and money. Perhaps next summer the Gwinnings might put a double mansard in and give me the upper one. What a dance Ja manages Zachary has stirred up!. Their papers looked bad. Must have Dr Dick Meadowcroft put a telephone in – been put in the college.
Have a letter half ready – will be out by 1st. & a happy one

until 1. PM when I dine - return
to weight or go to Jarvis Assistent
as the Veterinary School. Wagner's
Med clinic here is good. I have not
yet been to Flechsig. The buildings
here are very convenient. I am living
opposite the Zoologisches Institut -
very comfortable rooms - much
more so than the Berlin one - at
2/3 the cost. Lord! don't I wish
I could live all the year round
for 120 marks a month (beer included
here) and for books &c it would
be a great economy to live abroad
all the year. I have asked Howard to
get the bottle maker room rigged up
for the Koch apparatus which we
ought to have so that we could have
some cultures under weight when the

will do for August. Hope the Surg Congress one & Koch dinner will both in this one. If that ballet came too late - don't put it in the July one as it will be very stale
Glad to hear of the preparation for the C.M.A. Lauren Tait will give an address on abd Surg. & I have asked Saunderson / with Mullins consent / to give me a Medicine. I have had no word from him yet but it is some week since I wrote. Shall write again
I leave here July 12th. BK of Montreal or 25 Russell Sq will find me in London let me know if I can bring out anything
I shall send out a couple of months from here - Painting is awful. but the pen is worse

Yours ever
W Osler.
