G. C. Jones to W.O.  
Tuesday

Dear Sir William,

Many thanks for your note. My recall to Canada is to take up the re-organization there - to that I can hardly raise an objection, therefore I felt bound to send the telegram to the Times - for I would much rather nothing came out in the Press. You have been so kind and I understand your point of view, but I feel the circumstances are such that the kindest thing my friends can do for the moment is to let matters rest and see what events will bring forth when I return to Canada. Now about the dinner, please let this rest for a few days till I know better what my movements are.

With many thanks,

Yours sincerely,

G. C. Jones.
