IN THE HOUSE OF REPRESENTATIVES

AUGUST 6, 1959

Mr. Fogarty introduced the following joint resolution; which was referred to the Committee on Education and Labor

JOINT RESOLUTION

To help make available to those children in our country who are handicapped by deafness the specially trained teachers of the deaf needed to develop their abilities and to help make available to individuals suffering speech and hearing impairments those specially trained speech pathologists and audiologists needed to help them overcome their handicaps.

Whereas to meet the educational needs of some thirty thousand deaf children of school age in the United States requires the training of some five hundred teachers of the deaf annually; and

Whereas fewer than one hundred and fifty such teachers are in training this academic year; and

Whereas at least six of the institutions accredited for the training of teachers of the deaf have no trainees enrolled for the current academic year; and
Whereas, while the number of deaf children enrolled in special schools or classes increased by four hundred a year over the previous ten years, the increase in 1959 was more than twelve hundred; and

Whereas teachers of the deaf are needed in all States, and the institutions currently accredited for the training of teachers of the deaf have the facilities for meeting the needs of all the States for such teachers; and

Whereas each State cannot and should not undertake a wasteful duplication of facilities and faculties; and

Whereas some eight million Americans of all ages suffer from speech or hearing impairments of such nature as to seriously handicap them in their efforts to become self-supporting, self-sufficient taxpaying members of their communities; and

Whereas the medical, social, emotional, educational, and rehabilitation problems of this large section of our population result from speech and hearing defects a majority of which are remediable; and

Whereas some twenty thousand speech pathologists and audiologists are needed to properly diagnose, train, and rehabilitate these eight million handicapped people; and

Whereas to meet this need there are at present in the United States only some two thousand certified speech pathologists and audiologists and some five thousand noncertified specialists in this field; and

Whereas in order to begin to cope with the problems resulting from the critical shortage of trained personnel in this field it is estimated that our universities should be graduating at least one thousand five hundred properly trained speech pathologists and audiologists each year; and
Whereas only four hundred specially trained speech pathologists and audiologists are being graduated each year; and

Whereas speech pathologists and audiologists are needed in all States to staff schools, hospitals, and community service centers; and

Whereas, each State cannot and should not undertake a wasteful duplication of facilities and faculties for the training of speech pathologists and audiologists: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,
