

Neurology Conference - Fogarty Inst. Care

10/16/69

Benzer's suggestions - Limit conference

to following or less:

1. Benzer
2. Brenner
3. Barondes
4. Sidman
5. Stent
6. Changeux
7. Delbrück
8. Adler
9. Kuffler
10. Kandel
11. Nirenberg

1. *done* Ask Wanda to xerox and also give him original of a paper by Weidman and Kuwabara in Investigative Ophthalmology - a recent issue. Very dark xerox copies otherwise the photos do not come out at all.
2. How does Wanda get instructions? Make three copies of transcription.
3. *done* Norma to take out of library a book by Burn, K. H., entitled The Autonomic Nervous System, published by F. A. Davis Co., Philadelphia, 1963. Would like to order a copy for the lab and one for the library.
4. *done* Order two copies of a book by Deutsch, F. entitled Models of the Nervous System by Wylie, 1967. \$9.95.
5. *done* Order two copies of a book by Morgan, C., entitled Physiological Psychology, 3rd Edition, McGraw-Hill & Co., 1965.
6. *ordered* Order two copies of a book, also check out of library, by Friede, R. entitled Topographic Brain Chemistry, Academic Press, 1966.
7. *done* Check out of library a book by Causey, G. entitled The Cell of Schwann, E. & F. Livingston, London, 1960. Xerox chapter on tissue culture and also give the book to MN.
8. *done* Wanda to xerox a paper by Kornguth et al. in Experimental Cell Research Vol. 45, page 656, 1967; also one by Mahaley, Cancer Research, Vol. 26, page 195, 1966.
9. *done* Norma to get a paper in Cancer Research, Norman Anderson is one author, not senior author, but Mahaley will also be on the paper. Don't know title but it will be about an electron microscopy study of particles that have been isolated from brain tissue by zonal centrifugation. Also a xerox of a paper by Aldrich and Johnson in Biochem. J., Vol. 73, page 270, 1969, and one by Holmstedt and Toschi, in Acta Physiologica Scandinavia, Vol. 47, page 208, 1969.
10. Xeroxes of following papers: Weber, in Bulletin Schweiz. ~~AKK~~ Acad. Med. Wiff. Vol. 8, 263, 1952.
 - Content of Cerebral Tumors
 - Bulbring et al. in Lancet, i, 865, 1953.
 - Content of Cerebral Tumors

12.

~~not~~
ordered

Check to see if I ordered the following book: McIlwain, Henry, entitled Biochemistry and the Central Nervous System, 3rd Ed., if 4th Ed. available want that, Little, Brown and Co., Boston, 1966. One for lab and one for MN.

ordered 13.

Also order a book by A. V. Palladin, translated by Freisinger, Gilman and Woodman entitled Problems of the Biochemistry of the Nervous System, published by Pergamon Press, New York.

done 14.

Xerox a dark copy of a paper by Koelle in the J. of Comparative Neurology, Vol. 100, page 211, 1954.

done 15.

Also one by Szilard in Proc. Nat. Acad. Sci. ~~by~~ Vol. 51, page 1092, 1964.
