Dr. Marshall Nirenberg
NIH
Laboratory of Biochemical Genetics
Building 36, Room 1CO6
Bethesda, MD 20892

Dear Dr. Nirenberg:

Dr. James Morgan suggested that I contact you to obtain the mouse neuroblastoma cell line NIE115. We are interested in testing the role of INK4s (inhibitors of G1 cyclin-dependent kinases) in neuronal differentiation. If you are unable to provide us with this cell line, would you let us know who has it so that we can contact them? Our Federal Express # is 0380-0214-7/0246.

Please feel to contact me at 901/495-3597 or 3481, FAX at 901/495-2381 or e-mail at martine.roussel@stjude.org should you need additional information.

Thank you in advance for your help.

Sincerely,

Martine F. Roussel, Ph.D.
