INDEX

Abnormalities
in mucous glands, in smokers vs. non-smokers, 97
in small airways, in smokers vs. non-smokers, 97, 98

Acrokin
effect on respiratory tract, in rats, 104

Adipose tissue
effect of nicotine, in rats, 13

AHH activity
see Aryl hydrocarbon hydroxylase activity

Air pollution
and smoking, in COPD development, 82,83
and smoking, in lung cancer development, 45,46

Airways, large
effect of smoking one nonfilter cigarette, 99

Airways, small
abnormalities, in smokers vs. nonsmokers, autopsy studies, 97,98
effect of smoking one nonfilter cigarette, 99

Alcohol consumption
and smoking, in oral cancer etiology, 53-55

Alveolar macrophages
effect of cigarette smoke, 50

Angina pectoris
carbon monoxide exposure and, 11,12
coffee drinking, smoking, and, 8
smoking and, 8

Antitrypsin deficiency
and smoking, in COPD etiology, 87-90

Arteriosclerosis obliterans (ASO)
see Vascular disease, peripheral

Arthritis, rheumatoid
pulmonary function abnormalities, smoking, and, 92,93

Aryl hydrocarbon hydroxylase activity
role in lung cancer development, 49-52

Asbestos exposure
synergistic effect with smoking in lung cancer development, 41-43

Asbestosis
in smokers vs. nonsmokers, asbestos workers in Singapore, 95

Atherosclerosis, peripheral
see Vascular disease, peripheral

Atherosclerotic brain infarction (ABI)
see Vascular disease, peripheral

Autopsy studies
emphysema development and smoking, 97
mucous gland abnormalities and smoking, 97
small airway abnormalities and smoking, 97,98

Benzo(a)pyrene
and air pollution, in lung cancer development, 45,46
role in respiratory tract carcinogenesis, in animals, 46,47

Bladder cancer
see Genitourinary cancer

Blood cholesterol
effect of smoking, 17,18

Blood coagulation
effect of smoking, 18,19

Blood lipids levels
effect of smoking, 17

Blood pressure
effect of CO exposure, 11,12
effect of nicotine, 13
effect of smoking, 17

Boston Collaborative Drug Surveillance Program
role of coffee drinking and smoking in myocardial infarction, 8

Bronchial epithelium
changes after nitrogen dioxide exposure, in animals, 102,103
effect of filtered gas-phase cigarette smoke, in rabbits, 104,105

Bronchitis
post-operative, incidence in smokers vs. nonsmokers, 92
prevalence in cement and rubber industry workers, smokers vs. nonsmokers, 95,96
prevalence in the elderly, smokers vs. nonsmokers, 78,79
prevalence in male smokers by smoking patterns, 79
prevalence in rubber industry workers, smokers vs. nonsmokers, 96
prevalence in urban vs. rural population in Mongolia, 80
prevalence in U.S., statistics, 75
prevalence in wool and cotton textile workers in North Carolina, 93
and small airway abnormalities, in smokers vs. nonsmokers, 97, 98
and smoking, effect on pulmonary function, 80
summary of previous findings on relationship to smoking, 75-78
Bronchopulmonary diseases, non-neoplastic see also Bronchitis, Emphysema
air pollution and smoking in etiology of, 82, 83
antitrypsin deficiency and smoking in etiology of, 87-90
closing volume abnormalities, in smokers vs. nonsmokers, 84-87
history of respiratory diseases and smoking in etiology of, 90
incidence in autoworkers, 80
occupational exposure and smoking, 80
prevalence in Boston policemen, smokers vs. nonsmokers, 82, 83
prevalence in the elderly, smokers vs. nonsmokers, 78
prevalence in urban vs. rural population, in Mongolia, 80
reference listings, 107-118
small airways disease, pulmonary function, and, 84-87
small airways disease, smoking, and, 84-87
summary of recent findings, 106, 107
Bullous disease
incidence in men by age, race, and smoking habit, 90-92
Byssinosis
dust exposure and smoking in etiology of, 94-96

Cadmium
in emphysema etiology, in animals, 104
Cancer
see also Specific site, e.g., Lung cancer
summary of recent findings on relationship to smoking, 58, 59
Carbon monoxide
coronary heart disease and, 10-12
effects on cardiovascular system, 10-12
from freeway traffic, effect on myocardial work capacity and angina, 11
Carboxyhemoglobin levels
coronary heart disease and, 10-12, 19
Carcinogenesis
experimental, 46, 47
mechanism of action, in lung cancer induction, in animals, 46, 47
Carcinogens
in cigarette smoke condensate, 47
role in tumor induction in animals, 46, 47
Cardiovascular diseases
see also Coronary heart disease, Vascular disease, peripheral, Cerebrovascular disease
relationship of smoking to, 3-19
summary of previous findings, 3, 4
summary of recent findings, 19
Cardiovascular system
effect of carbon monoxide exposure, 10-13
effect of nicotine, 13
Catecholamine levels
effect of nicotine, in rats, 13
Cerebrovascular disease (CVD)
epidemiologic studies, 16, 17
incidence in longshoremen, 17
incidence in men, Framingham study, 17
incidence in women, smokers vs. nonsmokers, 16, 17
oral contraceptives and smoking in etiology of, 16, 17
Cervical cancer
see Genitourinary cancer
CHD
see Coronary heart disease
Cholesterol levels
effect of smoking, 17
Chronic bronchitis
see Bronchitis
Chronic obstructive pulmonary diseases
see Bronchopulmonary diseases, non-neoplastic, Bronchitis, Emphysema
Cigarette smoking
relationship to lung cancer, 39, 40
Cigarettes
titter vs. non-titter, in reducing lung cancer risk, 40, 41
Cigarette consumption
see Smoking
Cigarette smoke
see Smoke, cigarette
Ciliary activity
effect of nitrogen dioxide, in rats, 103
effect of smoking, 101, 102
Closing-volume abnormalities
as indicator of small airways disease, in smokers vs. nonsmokers, 84-87
CO
see Carbon monoxide
Coffee drinking
angina pectoris, smoking, and, 8
myocardial infarction, smoking, and, 8
Contraceptives, oral
incidence of stroke and, in women smokers vs. nonsmokers, 16, 17
COPD
see Bronchopulmonary diseases, non-neoplastic
Coronary Drug Project Research Group
epidemiologic study of smoking and CHD, 4-6
Coronary heart diseases
see also Angina pectoris, myocardial infarction
associated risk factors and smoking, 17
autopsy studies, 4
carbon monoxide and, 10-12
epidemiologic studies, 4
incidence in men under 60, in New South Wales, 6
incidence in men with and without ventricular premature beats, 4-6
incidence in middle-aged men from various countries, 6
incidence in a tribal population, New Guinea, 9
incidence in smokers vs. nonsmokers, Peoples Gas Co. Study, 6,7
incidence in smokers vs. nonsmokers, Stockholm Prospective Study, 6
incidence in women, smokers vs. nonsmokers, 9,10
nicotine and, 13
pathophysiology of, effect of carbon monoxide exposure, 10
summary of relationship to smoking, 3,4,19
Cotton dust exposure
see Dust exposure
Cough
effect of air pollution and smoking, 90,91
prevalence in cement and rubber industry workers, smokers vs. nonsmokers, 95,96
CVD
see Cerebrovascular disease, 16
Cytologic studies
macrophage function and smoking, 104,105
Dust exposure
and smoking as risk factors in bronchitis development, 92,94
and smoking, as risk factors in byssinosis development, 94-96
Elderly
prevalence rates for COPD in smokers vs. nonsmokers, 78
Emphysema
antitrypsin deficiency and smoking in etiology of, 87-90
cadmium exposure in etiology of, in animals, 104
premature development and smoking, autopsy studies, 97
prevalence rates in U.S., 75
pulmonary function studies and, 80
summary of previous findings on relationship to smoking, 75-78

Enzymes
effect of cigarette smoke, in rabbit lungs, 104,105
and macrophage function, in rabbit lungs, 104,105
Epidemiological studies
COPD and smoking, 78-80
lung cancer and smoking, 37
oral cancer and smoking, 33
pancreatic cancer and smoking, 57
Esophageal cancer
summary of previous findings on relationship to smoking, 55
Exercise performance
effect of carbon monoxide exposure, 11,12
and pulmonary function, smokers vs. nonsmokers, 99
Filters
as a factor in reducing lung cancer risk, 40,41
Framingham Study
epidemiologic study of CHD, CVD, intermittent claudication, and smoking, 14-16
Free fatty acids (plasma)
effect of nicotine, in rats, 13
Gastric cancer
mortality rates in Japanese smokers vs. nonsmokers, 56,57
tea drinking and smoking in etiology of, 56,57
summary of previous findings on relationship to smoking, 55
Genetics
role of antitrypsin deficiency and smoking in COPD development, 87-90
and smoking, role in lung cancer development, 37
Genitourinary cancer
cigarette smoke condensate as cause, in animals, 58
excretion of tryptophan in smokers vs. nonsmokers with, 58
incidence in smokers vs. nonsmokers, 58
summary of previous findings on relationship to smoking, 57
Heart rate
effect of CO exposure, 11,12
effect of nicotine, 13
Heart work capacity
effect of CO exposure, 10-12
effect of nicotine, 13
Histological studies
lung cancer and smoking, 38
macrophage function and, 104,105
Hypercholesterolemia
incidence in Belgium military men, 17,18
Hypertension
incidence in male Israeli civil servants, 18

Immune system
response to benzo(a)pyrene-induced lung tumors, 48,49
Intermittent claudication
smoking as a major risk factor, 14-16

Laryngeal cancer
summary of previous findings on relationship to smoking, 57
Lung cancer
asbestos exposure and smoking as risk factors, 41-43
epidemiologic studies, 37,38
experimental studies, 43-52
genetics and smoking as risk factors, 37
histopathologic studies in smokers vs. non-smokers, 38,39
immunologic response to benzo(a)pyrene-induced tumor, in animals, 48,49
incidence in cigar and/or pipe smokers vs. nonsmokers, 39,40
incidence in smokers vs. nonsmokers, in India, 37,38
incidence in women smokers vs. nonsmokers, 39,40
mortality rates from lung cancer for men, 43
particle deposition in bronchi and site of, 44,45
Philadelphia Pulmonary Neoplasm Research Project histopathologic study, 38
risk reduction with filter vs. nonfilter cigarettes, 40,41
role of aryl hydrocarbon hydroxylase activity and polyaromatic hydrocarbons in development of, 49-52
role of pulmonary infections and smoking in etiology of, 47,48
sex ratio statistic, 40
Xenon-133 washout technique for detection of, 43,44
summary of previous findings on relationship to smoking, 35-37
Lung function
see Pulmonary function

Menopause
and cardiovascular disease, in women smokers vs. nonsmokers, 10,19
Mitochondria
effect of tobacco smoke, in rat liver, 104
Mortality
from CHD, age as a factor, 6
from CHD, in middle-aged men in seven countries, 6
from CHD, in smokers vs. nonsmokers, 3-6
from CHD, in survivors of myocardial infarction, smokers vs. nonsmokers, 4-6
Mucociliary transport
effect of smoking, 101,102
Mucous gland abnormalities, in smokers vs. nonsmokers, 97
Myocardial infarction
coffee drinking, smoking and, 8
incidence in men with and without ventricular premature beats, 4,5
incidence in pre- vs. postmenopausal women, 10
prevalence in current vs. ex-smokers, 8
recurrence in smokers vs. nonsmokers, in Buenos Aires, 9
and smoking in India, 8

Nicotine
coronary heart disease and, 13,19
effect on adipose tissue, in rats, 13
effect on peritoneal macrophages, in mice, 105
effect on pinocytosis, in mouse peritoneal macrophages, 105
effect on respiratory tract in rats, 104
Nitrogen dioxide
effect on AHH activity, 52
effect on bactericidal activity, in mouse lung, 103
effect on lung physiology, in monkeys, 103
effect on pulmonary physiology, in animals, 102-103
Nitrosamines
role in respiratory tract carcinogenesis, in animals, 47

Occupational diseases
asbestosis, in asbestos workers, in Singapore, 95
chronic bronchitis, in cement and rubber industry workers, 95,96
chronic bronchitis and respiratory tract irritation, in rubber industry workers, 96
bronchitis, in wood and cotton textile workers, 93,94
byssinosis, in cotton and wool textile workers, 93,94
COPD, in auto workers, 80
smoking and, 93-96
Occupational hazards
air pollution exposure in Boston policemen, 82,83
asbestos exposure and smoking as factors in lung cancer development, 41-43
rubber industry fumes and smoking, 96
textile dust exposure and smoking, 93-96
Oral cancer
alcohol consumption and smoking in etiology of, 53-55
epidemiologic studies, 53-55
summary of previous findings on relationship to smoking, 52,53
Pancreatic cancer
incidence in cigar/pipe and cigarette smokers vs. nonsmokers, 55,56
relative risk in men by number of cigarettes smoked, 55
summary of previous findings on relationship to smoking, 55
Particulate matter
and lung cancer development, 44,45
Peoples Gas Company Study
epidemiologic study of smoking and CHD, 6,7
Peritoneal macrophages
effect of nicotine, in mice, 105
Peripheral vascular disease
see Vascular disease, peripheral
Philadelphia Pulmonary Neoplasm Research Project
lung cancer histopathologic studies and, 38
Pinocytosis
effect of nicotine, in mouse peritoneal macrophages, 105
Pipe smoking
relationship to lung cancer, 39,40
Polynuclear hydrocarbons
role in lung cancer development, 49-52
Postoperative complications
incidence in bronchitic and nonbronchitic smokers vs. nonsmokers, 92
Pulmonary bactericidal activity
effect of nitrogen dioxide, in mouse lungs, 103
Pulmonary clearance
effect of nitrogen dioxide, in rats, 103
effect of smoking, 101,102
in smokers, ex-smokers, and nonsmokers with and without pulmonary disease, 100,101
Pulmonary function abnormalities, and rheumatoid arthritis in smokers vs. nonsmokers, 92,93
of Boston policemen, smokers vs. non-smokers, 82,83
before and after smoking one non-filter cigarette, 99
effect of cigarette smoke, in monkeys, 102
effect of dust exposure and smoking, 95
effect of exercise performance and smoking, 99
effect of isoproterenol in smokers, nonsmokers and bronchitics, 99,100
effect of nitrogen dioxide, in animals, 102,103
effects of smoking, in healthy populations, 80,81
effects of smoking, in patients with COPD, 80
of insurance company employees, smokers vs. nonsmokers, 80,81
of male executives, smokers vs. nonsmokers, 81
of male and female smokers, in New Guinea, 81,82
of pipe and cigarette smokers, ex-smokers, and nonsmokers, 99
small airways disease, smoking, and, 84-87
of smokers vs. nonsmokers, 80-82
Pulmonary infections
and smoking, role in lung cancer development, 47,48
Pulmonary macrophages
effect of cigarette smoke, in rabbits, 104,105
effect of cigarette smoke extract, in sheep lungs, 105
Pulmonary physiology
new animal model for testing of, 102
Renal cancer
see Genitourinary cancer
Respiratory symptoms
see also Cough
Respiratory symptoms
effect of air pollution and smoking, 90,91
prevalence in cement and rubber industry workers, smokers vs. nonsmokers, 95,96
Respiratory tract
carcinogenesis induction in animals, 46,47
irritation, prevalence in rubber industry workers, smokers vs. nonsmokers, 96
Seven Countries Study
epidemiologic study of smoking and CHD, 6
Sex ratio
in mortality rates from lung cancer, 40,46
Small airways disease  
see Airways, small
Smoke, cigarette  
effect on lung AHH-activity, 50,51
effect on pulmonary macrophage function, in rabbits, 104
effect on pulmonary physiology, in animals, 102
effect on respiratory tract, in rats, 104
extract, effect on pulmonary macrophages, in sheep lungs, 105
Smoke condensate, cigarette  
as cause of bladder tumors, in rats, 58
role in respiratory tract carcinogenesis, in animals, 47
Smoke, tobacco  
effect on mitochondrial function, in rat liver, 104
Smoking  
and air pollution, effect on pulmonary function and COPD prevalence, 82,83
and asbestos exposure, as factors in lung cancer development, 41-43
association with other risk factors in CHD, 6,7,17
bronchitis prevalence rates and, 79
and CHD, age as a factor, 6
and CHD, in women, 9,10
and coffee drinking, in myocardial infarction etiology, 8
effect on platelet function, 18,19
as the major risk factor in intermittent claudication, 14-16
as a major risk factor in peripheral vascular disease, 14-16
vasoconstrictive effects in normal subjects, 16
Smoking characteristics  
bronchitis prevalence rates in men and, 79
COPD prevalence rates in Yugoslavia and, 79
Stockholm Prospective Study  
epidemiologic study of smoking and CHD, 6
Stomach cancer  
see Gastric cancer
Stroke  
see Cerebrovascular disease
Sudden death  
incidence in men with and without ventricular premature beats, 5
incidence in women, smokers vs. non-smokers, 9,19
smoking as a risk factor, 4-6,19
Surgery  
complications following, in smokers vs. nonsmokers, 92
Tecumseh Study  
lung function differences in smokers and nonsmokers, 81
Thrombosis obliterans (TAO)  
see Vascular diseases, peripheral
Thrombosis  
smoking and, 18,19
Traffic  
effect on air pollution in Boston, 82,83
Urinary bladder cancer  
see Genitourinary cancer
Uterine cancer  
see Genitourinary cancer
Vascular disease, peripheral  
see also Intermittent claudication
epidemiologic studies, 14-16
experimental studies, 16
smoking in etiology of, 14-16
Women  
CHD incidence in, 9,10
lung cancer incidence in, 39,40
mortality rates, in smokers vs. nonsmokers, 9,10
mortality rates from lung cancer and asbestos exposure, 42,43
mortality rates from lung cancer, statistical sex ratio, 40,45
myocardial infarction in pre- vs. postmenopausal, 10
secular trends of lung cancer development in, 40
sudden death rates in, 9,10
trends in cancer incidence rates for selected sites in, 41,42
Xenon-133  
washout technique for detection of lung cancer, 43,44
