

September 22, 1947.

Dear Sol:

Thank you for your "good wishes in passing".

I'm sorry that I can't accomodate you as far as my thesis is concerned; the typist erred in making only two copies, both of which are in the hands of the Yale Graduate Faculty. Neither Tatum nor I has one now!, although we hope later to have some more copies typed. The thesis was constructed entirely from our paper in J. Bact., and one now in press in Genetics (Sept. issue). I do not even know whether I have a copy of this in my goods now in shipment; if I find one, I shall certainly send it to you. Meantime, reprints of the J. Bact paper did arrive here, and I shall be glad to send you two copies.

Best regards,

Yours sincerely,

Joshua Lederberg.
